Index to Volume XVIII

Page numbers preceded by '(P)' refer to the summaries of papers read at the General Meetings of the Association of Clinical Pathologists

ABER, G. M. *See* MORRIS, L. O., and ABER, G. M.
Abscesses, *Mycobacterium fortuitum* in: (P), 122; 307
Acid-base balance interpreted by Astrup *p*H-meter (P), 486
ADAMS, C. W. M.: Histochemistry of the central nervous system (P), 124
ADAMS, J. F., and KENNEDY, E. H.: Quantitative aspects of the excretion of radioactive and microbiologically active material in urine after parenteral hydroxocobalamin, 780
Adenolymphoma, benign lymphoepithelial salivary lesion distinguished from, 391
Aerobic organisms from cerebrospinal fluid, technique for culture of, 385
Albumin, auto-agglutination in, 212
—, intravenous, association of, with alkaline phosphatase activity, 441
ALI, M. Y.: The nature of multinucleated cells in the nasopharynx, 424
Alkaline phosphatase activity, association of intravenous albumin with, 441
— —, placental, heat stability of, 359
— —, serum, and magnesium (P), 127
Alpha-amino nitrogen in cerebrospinal fluid and its alterations in meningitis, multiple sclerosis, and other neurological disorders, 771
ALTESCU, E. J.: New reagent for the direct determination of serum cholesterol, 824
AMIES, C. R., and GARABEDIAN, M.: Preparation and use of fixative slides for the diagnosis of *Trichomonas vaginalis*, 27
Amino-acetone excretion, urinary, in lead workers, 230
Ammonia, plasma, time factor relating, with hepatic coma (P), 126
Ammonium, blood, in respiratory failure (P), 126
Amylase, urinary, electrophoretic behaviour of, 664
Amylolytic enzymes, urinary, in acute hepatitis, 775
Anaemia and dysphagia in South Wales community (P), 122
—, aplastic, problem of (P), 487
—, haemolytic, abnormal haemoglobin associated with (P), 124
—, —, necrotizing arteritis with giant cells associated with, 588
—, Heinz body, hereditary, thrombocytopenia and haemoglobinopathy (? Hb Koln) in Glasgow family (P), 123
— in occult intestinal malabsorption, 110
—, megaloblastic, anticonvulsant, reversible absorptive defects in, 593
—, —, direct antiglobulin (Coombs) test in, 119
—, —, of pregnancy, enzymatic release of folate activity from red cells in, 599
—, —, serum pepsinogen in differentiation of, 349
—, pernicious, autoantibody to gastric parietal cells: immunofluorescence test with rat stomach, 456
Anaesthesia, gaseous, effect of, on blood carbon dioxide measurements, 364
ANDERSON, K., and KENNEDY, H.: Comparison of selective media for the isolation of salmonellae, 747
Aneurysm, dissecting, of aorta, Marfan syndrome, and pregnancy, 277
ANSTALL, H. *See* PALLIS, C., MACINTYRE, I., and ANSTALL, H.
ANTCLIFF, A. C. *See* PEGG, D. E., and ANTCLIFF, A. C.
Antibiotic sensitivity test trial, Report on, 1
Antibiotics, studies on 'carry-over' of, using cellophane transfer technique, 314
Antibodies, platelet, in neonatal thrombocytopenic purpura affecting pair of siblings, significance of, 462
— to streptokinase in cerebrospinal fluid, method for detection and measurement of, 256
Antibody against stored blood associated with cirrhosis of the liver and false-positive serological tests for syphilis, 460
—, fluorescent, quantitative specific antigen determination using, 817
— formation in infectious mononucleosis (P), 489
—, insulin-binding gamma I M, association of acute local reactions to insulin with, 356
— technique, indirect fluorescent, in serology of *Toxoplasma gondii*, 193
Anticoagulant, circulating, inhibiting antihaemophilic globulin, 334
—, —, specifically active against antihaemophilic globulin (P), 122
— therapy, laboratory studies on patients receiving, 327
Anticonvulsant megaloblastic anaemia, reversible absorptive defects in, 593
Antidiuretic hormone, cellular mode of action of, 533
Antigen determination, quantitative specific, using fluorescent antibody, 817
Antiglobulin test, direct, in megaloblastic anaemia, 119
Antihaemophilic globulin, circulating anticoagulant inhibiting, 334
— —, circulating anticoagulant specifically active against (P), 122
Antiheparin activity of some human blood protein fractions and their possible relationship to thrombosis, 339
Anti-thrombin III (P), 489
Antral mucosa in normal controls and in patients with duodenal ulcers and gastric ulcers (P), 488
Aorta, dissecting aneurysm of, Marfan syndrome, and pregnancy, 277
Aplastic anaemia, problem of (P), 487
Arnold-Chiari malformation (P), 121
Arteritis, necrotizing, with giant cells associated with haemolytic anaemia, 588
Ascaris, ossifying pulmonary granulomatosis due to larvae of, 737
ASHLEY, D. J. B.: Two cases of clostridial hepatitis, 170
ASHTON, N., and MORGAN, G.: Embryonal sarcoma and embryonal rhabdomyosarcoma of the orbit, 699
Association of Clinical Biochemists: Joint Meeting with A.C.P., 124
— — — —: Reports and Bulletins, 820
Association of Clinical Pathologists: Broadsheets, 109, 234, 368, 478, 694, 816
— — — —: 73rd General Meeting, 121
— — — —: 74th General Meeting, 486
— — — —: Symposium on Renal Function, 491, 694
— — — —: *Bacteriology Committee:* Report on antibiotic sensitivity test trial, 1
Astrup micro equipment, rapid estimation of serum cholinesterase activity using, 435
— *p*H-meter, acid-base balance interpreted by (P), 486
ATA, M.: Cerebral infarction due to intracranial sinus thrombosis, 636
Athletic performance, detection of small amounts of drugs in body fluids and their effects on (P), 486
AutoAnalyzer, estimation of hydroxyproline by, 686
—, estimation of true glucose in blood by, 249
—, Technicon, estimation of sodium, potassium, and chloride in urine using, 684
—, turbidimetric method for determination of serum globulin using, 131
Autoantibody, pernicious anaemia, to gastric parietal cells: immunofluorescence test with rat stomach, 456
AVES, E. K., JONES, G. R. N., and CUNNINGHAM, G. J.: Storage of frozen sections in paraffin blocks, 383
AZZOPARDI, J. G., and HOFFBRAND, A. V.: Retrogression in testicular seminoma with viable metastases, 135

BAAR, H. S., and GALINDO, J.: Ossifying pulmonary granulomatosis due to larvae of ascaris, 737
Bacteria, pathogenic, dispersal of, by patients with skin diseases (P), 489
—, technique for counting number of, in urine and other fluids, 480
Bacterium anitratum and *Mima polymorpha* infection in Uganda, 301
BAGSHAWE, K. D., KEMBLE, J. E., and THOMAS, M. G.: Filtration apparatus for protein extraction from urine, 379
BAIRD, C. W. *See* RIGG, B. M., and BAIRD, C. W.
BANIČ, S. *See* ZAJC-SATLER, J., and BANIČ, S.
Barber, Mary (*Obituary*), 697
Barbiturates, identification of, by thin-layer chromatography, 482
BARKER, A. A. K. *See* CHALMERS, D. G., and BARKER, A. A. K.
BARNETT, H.: Squamous cell carcinoma of the body of the uterus, 715

BLAINEY, J. D.: Estimation of the glomerular filtration rate, 511
Blood ammonium, in respiratory failure (P), 126
— carbon dioxide measurements, effect of gaseous anaesthesia on, 364
— cells, histochemical demonstration of gamma glutamyl transpeptidase activity in, 244
— counts, break-off capillary tube method for, 689
—, estimation of true glucose in, by AutoAnalyzer, 249
— leucocytes, diagnosis of virus infections by immunofluorescent techniques applied to (P), 122
— levels of cholesterol, mucoproteins, and fibrinogen, relationship between, in ischaemic heart disease, 175
—, lipid studies in, in multiple sclerosis and motor neurone disease, 641
— lymphocytes, effect of previous irradiation on transformation of, 783
—, occult, in faeces, ortho-tolidine hydrochloride test for detection of, without dietary restrictions, 687

Blood protein fractions, antiheparin activity of, and their possible relationship to thrombosis, 339
—, recommendations and requirements for haemoglobinometry in, 353
—, stored, antibody against, associated with cirrhosis of liver and false-positive serological tests for syphilis, 460
— tests in coronary thrombosis (P), 123
— —, occult, influence of iron preparations on, 103
